THIS

Co to je a co to žere

Introduction

Co to je a co to žere

Motivace

K cemu nam je this

Co to neni

Chyba je, myslet si, ze je to declaration, ale je to run time

Common problems

Neni to to, kde to piseme, ale kde je to volano.

WHY?

Neni to to, kde to piseme, ale kde je to volano.

.bind()

The bind() method creates a new function that, when called, has its this keyword set to the provided value, with a given sequence of arguments preceding any provided when the new function is called.

.call()

The call() method calls a function with a given this value and arguments provided individually.

.apply()

The apply() method calls a function with a given this value, and arguments provided as an array (or an array-like object).

Closures

A closure is a function having access to the parent scope, even after the parent function has closed.

other

Neni to to, kde to piseme, ale kde je to volano.
